Subject: Four Mile Run Trail Bridge Stakeholder Group Update #2 - April 25, 2022
Date: Monday, April 25, 2022 11:20:05 AM

To: Four Mile Run Bridge Stakeholder Group (BCC)

You are receiving this email per your request to be included in the Four Mile Run Trail Bridge Stakeholder Group. Since the update provided in the Fall of 2021, the City has:

1. Approved funding for the design of a replacement bridge;
2. Awarded a contract for structural analysis and design recommendation. This preliminary work is underway:
 - a. Within the next two weeks (weather permitting), the contractor will perform analysis of the surrounding bridge soils and embankment to determine if existing bridge abutments are structurally sound and can be preserved; and
 - b. Preliminary analysis will continue through May with a final report and replacement recommendation received by the City in early June; and
3. Funding for the bridge replacement is included in the FY2023 Capital Improvement Budget proposal for approval in May 2022.

City staff will provide an update to the community following receipt of the report. Based on the outcome of the analysis two options exist:

1. If abutments cannot be maintained, the final design phase will consist of designing slope protection, replacement abutments, and the installation of a new prefabricated bridge; and
2. If abutments are determined to be structurally sound, the final design phase will consist of the installation of a new prefabricated bridge in place of the existing bridge structure.

Future updates will be provided through this email stakeholder group and the [Four Mile Run Park Trail Bridge](#) project page. Please forward this email to other interested stakeholders, and you may refer individuals to Jack.Browand@alexandriava.gov to be added to the Four Mile Run Trail Bridge Stakeholder email group.

Sincerely,
jack
