

**“Turning Your Home Into a Castle,”
Saturday, August 26th from 2:00pm - 3:30pm
at the Patrick Henry Rec Center**

Educational event hosted by the Environmental Policy Commission (EPC)

The EPC is partnering with the Chesapeake Climate Action Network (CCAN), Rewiring America & Citizens Climate Lobby to discuss how to Save Money and Fight the Climate Crisis by explaining who qualifies and how much money everyone gets back from the federal government when they replace gas appliances with electric, upgrade electrical panels (think electric vehicle charger or induction stoves), add insulation or air sealing and other measures to make your home use less gas and more efficient electricity. We'll also have some practical tips on energy auditing that you can do on your own -like how and where to caulk. Demonstrations will include induction cooktops and show you how to start turning your home into your castle - even if you rent!

Light refreshments will be served. JOIN the EPC and help save the planet!

Fight Climate Change and Save Money

New government incentives and energy technologies empower you to take personal action in the transition to a clean energy economy, and save money!

Chesapeake Climate Action Network's local chapter – NOVA New Leaf – is hosting a Climate Action Showcase on **August 26th** in Alexandria, where we will:

- Discuss how to access new federal and state incentives to transition your home to sustainable energy and electric appliances
- Introduce available home appliance technologies (e.g., heat pumps, induction stoves, etc.) that can reduce your emissions and lower your energy bill
- Share ideas and resources to help transition away from fossil fuels
- Talk about how you can join our campaign and advocate for climate action
- Hang out and eat free snacks!

What: Climate Action Showcase

When: August 26th, 2:00 PM – 3:30 PM

Where: Patrick Henry Recreation Center 4653 Taney Ave, Alexandria, VA 22304
